Critical thinking in Geopolitics

Critical Minds Shape Global Orders

OVERVIEW

This workshop equips participants with essential critical thinking skills to analyze complex geopolitical issues. It trains professionals to question assumptions, assess competing narratives, and make informed strategic decisions in a rapidly evolving global landscape.

Audience

This workshop is tailored for professionals with a background in geopolitics, including analysts, diplomats, strategic advisors, and researchers. It is ideal for those who already engage with geopolitical issues and seek to refine their analytical skills, challenge prevailing narratives, and deepen their ability to interpret complex global developments with critical precision.

Instructors

The workshop will be led by expert instructors with deep mastery in geopolitics, combining academic excellence and practical experience. Their guidance ensures a rigorous, advanced learning experience for professionals seeking to refine their strategic and analytical skills.
